- T-Shirt Design ●
- Newspaper Ads ●
- Menu ●
- Single/Mix Tape Covers ●
- Digital Illustration ●
- Animated Potrait ●
- Caricature Design ●

# HOW WE DO?

01

CONCEPT

The starting the of the process where the client and our designers meet and discuss ideas or concepts that client has in his mind. We tend to acquire all the small details that client could possibly think of to deliver the perfect product.

BRAINSTORMING  
IDEAS

02

Our creative minds conduct a session based on the information provided by client and start research on design.

03

DESIGN

Once we have gathered all the information, the design process then starts in the software. We present the design to client for feedback and his critique on likes and dislikes regarding design.

04

REVISE

We make changes in the design as per client's feedback.

05

DELIVER

The final stage when client is 100% satisfied by the product and approves it. Appropriate files are then delivered to client.
